SUMMER 2018: July 19 - August 3

BEAUTIFUL SIGHTS. DIVERSE EXPERIENCES.

- Discover Thailand's agricultural impact in Southeast Asia and across the globe.
- Experience a very diverse climate where agriculture can be found in tropical, sub-tropical and temperate lowland areas.
- Become engaged and culturally/internationally enriched in a diverse area of the world with very interesting history, art and religion.
- Experience local attractions such as a floating market, elephant camp and night bazaar.
- Visit universities with deep ties to Oklahoma State University, including an opportunity to engage with alumni who have had a significant impact on the educational system in Thailand.
